Re: Diamond Alkali Superfund Site, Lower Passaic River Study Area Removal  
Administrative Order on Consent, Index No. CERCLA 02-2008-2020  
Bill for Collection No. 2721426S0034

Dear Mr. Rabbe:

The United States Environmental Protection Agency ("EPA") is charged with responding to the release or threatened release of hazardous substances into the environment and with enforcement responsibilities under the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), as amended, 42 U.S.C. Section 9601 et seq. EPA has documented the release or threat of release of hazardous substances into the Lower Passaic River Study Area portion of the Diamond Alkali Superfund Site. In response to the release or threatened release of hazardous substances, EPA has spent, and will continue to spend, public funds on actions to investigate and control such releases and threatened releases at the site pursuant to Section 104 of CERCLA.

On June 23, 2008, EPA entered into an Administrative Order on Consent ("Order"), Index No. CERCLA 02-2008-2020, with Occidental Chemical Corporation ("OCC") and Tierra Solutions, Inc. ("TSI"). Pursuant to Paragraph 51 of this Order, OCC and TSI agreed to reimburse EPA for all Future Response Costs related to this Order incurred by EPA after the issuance of this Order. This Bill for Collection No. 2721426S0034 covers the period from September 1, 2012 through August 31, 2013.

Enclosure A to the Bill for Collection is a narrative statement describing EPA's oversight and response costs. Enclosure B consists of two itemized cost summaries, referred to as Superfund Cost Recovery Package Imaging and On-Line System ("SCORPIO\$") reports, for your review. One SCORPIO\$ report is enclosed for Operable Unit (OU) 02, covering the period of September 1, 2012 through August 31, 2013 (\$ 149,007.94). For the purposes of the SCORPIO\$ reports, OU 03 represents the expansion of the CERCLA investigation from the six-mile Passaic River Study Area to the seventeen-mile Lower Passaic River Restoration Project and OU 04 represents the Newark Bay Study Area.

The other SCORPIO\$ report enclosed is for OU 00, covering other billable costs for the period from September 1, 2012 through August 31, 2013. Some personnel charged their time to OU 00 to represent time spent equally on OUs 01, 02, 03 and 04. Therefore, the OU 00 costs have been apportioned among OU 01, OU 02 (Occidental Chemical Corporation [OCC]/Tierra Solutions, Inc. [TSI] Removal and OCC/TSI Combined Sewer Overflow/Storm Water Outfall Sampling), OU 03 (Cooperating Parties Group [CPG]-lead RI/FS, CPG-lead Removal and EPA-lead work) and OU 04 as described in the enclosure. While all OU 00 charges are included in the SCORPIO\$ report for OU 00 that appears in Enclosure B, this Bill for Collection includes only those costs that EPA has apportioned to OU 02. For example, New Jersey Dept. of Environmental Protection Expenditures and their associated indirect costs included in the OU 00 SCORPIO\$ report were not apportioned to this OU 02 Bill and will be apportioned to Bills for other Operable Units.

EPA certifies that as of August 31, 2013, it has expended at least \$ 152,608.87 in oversight and response costs relating to the Lower Passaic River Study Area removal during the time period covered by this bill.

As per Section XVI of the Order, payment shall be made within thirty (30) days of receipt of this letter into EPA's account at the Federal Reserve Bank via electronic funds transfer ("EFT").
